Kapunda High School Centenary Foundation Scholarship and Education Grants 2014

ADVICE TO APPLICANTS

Please read carefully

Selection of Applicants

In an endeavour to make a fair choice in the selection of students who indicate they would benefit from financial support to further their goals, the Selection Panel would like to know as much as possible about all applicants.

You are advised to submit as much information and supporting documentation, such as references from teachers, employers, mentors, etc., as you can. In your submission for funding, it will help if you have clearly researched information on how much your future education or training will cost, how you expect to fund it, and where you think financial support from the Centenary Foundation can help you.

The Jim Bettison Scholarship and the available Education Grants will recognise:

- A commitment to future education and training
- A record of past effort and achievement
- A desire to pursue opportunities and achieve successful outcomes
- A demonstrated need for financial assistance, as indicated by a well researched financial plan.

As these awards are highly sought after, the initial selection of applicants to proceed through to the interview stage will be made from the written applications. It is therefore very important that all applicants make every effort to submit as good an application as possible.

APPLICATIONS CLOSE ON FRIDAY, 30 AUGUST 2013
