

# DAIRY AUSTRALIA

## SUPPORT TO FIND WORK IN DAIRY

### Traineeships and School Based Traineeships

Dairy Australia People Experience Leads work with Dairy Farmers and students across Australia to support the uptake of Traineeships including School Based Traineeships on dairy farms.

Students interested in working in the dairy industry while still at school can complete a Certificate II in Agriculture or a Certificate III in Agriculture or Dairy Production while completing their final years of high school.

Students interested in leaving school to pursue a career in the dairy industry can also complete these certificates while working full time as a trainee on a dairy farm.

For more information contact the People Experience Lead in your region.
